WASHINGTON CENTER GENERAL INFORMATION

The Washington Center, Olympia's largest performing arts facility, is committed to providing a wide variety of entertainment and cultural activities for South Puget Sound. Located in the heart of the capital city, the Washington Center has become a community-gathering place that provides a focus for the arts, educational programs and cultural enrichment unique to the region. Not only available for the performing arts, the Center's Stage I, Stage II and lobby areas have and continue to be used for public and private events, seminars, workshops, weddings and receptions by various business and civic organizations, schools, community groups and individuals.

Our multi-purpose facility contains a 983-seat main stage proscenium theater with four seating levels in a three-and-a-half story auditorium, and our Black Box theater houses a smaller flexible seating space which accommodates a multitude of uses.

Since 1985, the Washington Center has hosted over 6000 events and over two million theater-goers. Our history is as rich as our purpose. The Washington Center could rightly be called the grandchild of the old Liberty Theater, a vaudeville house opened on the same site in 1924. The Liberty was then renovated and refurbished for movies in 1948, becoming the Olympic Theater. The Center still retains the flavor of the old 1924 façade, although the interior was completely redone. The theater is now an elegant performing arts center and community facility.

MISSION STATEMENT

We inspire audiences and artists of all ages through live performances,
enriching the vibrancy of our community

WASHINGTON CENTER EVENT INFORMATION

This information is provided to assist you in estimating expenses for labor hours required for your event. All events have different staffing needs which make it difficult to provide a final cost estimate prior to the event. During your production meeting we will make every effort to estimate the number of staff required so that you may calculate labor expenses. The final invoice/settlement will be mailed to you shortly after your event.

PRODUCTION MANAGER: The Production Manager is responsible for transposing the technical requirements of the event prior to the actual rental of the space. Each event has different technical needs depending on the complexity of the set, lighting, and audio components. You will be billed for preparation time, rehearsals, event/performance run time and to restore the space to its original condition prior to your load-in. The Production Manager will determine the final number of staff required for any given set up procedure.

STAGE LABOR: Our staff will work with your organization to ensure that all artistic, technical, and logistical requirements are satisfied. Each event will be fully contained within the stage and lobby space that is rented. All sets and equipment must be loaded out by the end of the contracted period. All events require Washington Center staff to manage stage, technical and lobby activities prior to, during the event and until at least all sets and equipment are removed from the theater. The Washington Center has a labor agreement with IATSE local #15. The labor rate is \$35 per hour for each staff person required to assist in the set-up, run of the event, set strike and restoration of the theater to its original condition. There is a four (4) hour minimum labor call per staff member. Hourly charges for any and all hours worked by any stage crew member in excess of 8 hours in a calendar day shall be charged \$52.50 per hour. All hours worked between the hours of midnight and 7:00 am shall be compensated at the rate of double time. Technical crew shall be allowed a meal period of at least thirty (30) minutes which commences no less than two (2) hours nor more than five (5) hours from the beginning of the shift. If a meal break is not called by the end of the fifth (5th) hour of work, compensation of double times the base rate at the beginning of the sixth (6th) hour must be paid until a meal break is called.

STAGE CREW: The number of stage crew varies according to the complexity of the set, rigging, lighting, and audio requirements as determined by the Washington Center Production Manager. There will be 2–3 crew members at a minimum on staff for rigging of sets, hanging and focusing lighting equipment, audio installation, and other set up. The Stage Crew is composed of light board, audio board, fly grip and spot operators, and additional technical assistants as needed. Complex theater, choral or musical events which require a set load-in,

set up of riser platforms or acoustic shell may necessitate a crew of 4-6. You may supply your own qualified crew members to assist the Washington Center crew.

EVENT DIRECTOR/FRONT OF HOUSE MANAGER: One House Manager is required for each event with attendance projected to be fewer than 500 and 2 for an audience projected to be 500 or more; although actual staff requirements are determined by the Events Director. The FOH Manager is present whenever there is an audience or the lobby is occupied for any reason including loading in of lobby items. He/she will assist with any prearranged lobby set up and ensure audience comfort, safety and proper seating. The FOH Manager usually arrives 2 hours prior to the event to prepare the facility, assign ushers, and meet with the producer to review special seating needs and latecomer policy. The FOH Manager is required to stay until the audience has left and the lobby is completely vacated. All Front of House services are billed at \$30 per hour per person. Hourly charges for any and all hours worked by front of house member in excess of 8 hours in a calendar day shall be increased to \$45.00.

Regular janitorial services are included in the rental fee. Additional cleaning fees may be charged at \$20 per hour if the facility requires specific cleaning directly related to use during an event.
