

The Center's COVID Precautions

1 Cleaning
Regular disinfection of high-touch locations will occur throughout and after each event including door handles, elevator buttons, restroom fixtures, and handrails.

2 Ventilation
Our indoor system meets COVID safety recommendations of air filtration. Our HVAC rating/grade is MERV 8 pre filter and MERV 14 bag filter. Our ventilation turnover rate is 4.5 times per hour with increased outdoor air circulation during intermissions.

3

Touchless Tickets

Ticket barcodes (printed and electronic tickets) will be scanned upon entering the venue.

4

Masks

Face masks covering nose and mouth are required to enter the venue and at all times inside.

5

Concessions

Concessions is closed until further notice.

6

Capacity

Capacity limits for indoor entertainment venues are determined by Healthy Washington Roadmap to Recovery.

7

Physically Distanced Seating

Seating will be sold in small groups of primarily 2 and 4. Groups will be spaced from other to ensure required physical distancing.
